SNORKELLING THE ULTIMATE FAMILY ADVENTURE

We at Dive South East Asia often hear that there is nothing to it! **THAT IS SNORKELLING!**

Our highly trained and professional staff will patiently teach you and your family skills which will make snorkelling easy and enjoyable. There will always be a dive professional on every snorkelling adventure (if you desire), pointing out the marine life and ensuring your experience is safe and exciting.

A question we are often asked; is my child ready for the snorkelling experience? Any child who can put a mask on their face and is comfortable in the water is ready. A child in water wings and a mask can snorkel beside a parent or one of our highly trained staff at many of the shallow reef sites we visit.

They now can also experience the wonders that await down below!
